THE NEW EBOOK PLATFORM IS GOING LIVE

The *electrical training ALLIANCE* will release a new eBook platform Thursday, March 2, 2023, to replace our existing system. eBook access will be unavailable on March 2nd from midnight – 6:00 a.m. ET during the migration. The details below show why this is being done and what it means for current eBook users and Training Directors.

Advantages:

- The primary advantage is an improved reader experience that supports more devices than the older system currently in use.
- Available features are like what we presently have, such as bookmarking and commenting and a tutorial on the first login. Unfortunately, any comments or bookmarks previously made in the old eBook platform will not transfer over to the new system.
- Users no longer need to email us to request a password reset. You can request password changes from the login screen and get password reset instructions emailed to you.
- A web reader and device-specific apps are provided, which work with current versions of iOS and Android. Most importantly, the apps are regularly maintained and kept up to date.

Information for current eBook users:

- The current eBook platform will remain available for a short period while we move to the new system. However, it **will not be updated** with new eBook assignments, titles, or errata after going live.
- Once implemented, new assignments, titles, and errata will only be available on the new system.
- The old platform will eventually be shut down, so you should migrate to the new system as soon as possible.
- Shortly after we go live, all current eBook users will receive an email with their new account information, similar to the email below. It will come from donotreply@njatc.org.

Hello **Your Name**,

Welcome to the *electrical training ALLIANCE* eBook Platform!

Your username is "user@youremail.com".
Your password is "*********".

Please use your credentials to login in to https://ebooks.electricaltraining.org

Also, please note that your eBook login is separate from your LMS login information. If you change your email/password in one location it is not automatically updated in the other.

If you are reading on a mobile device, you can also download the Kitaboo app from the iTunes or Google Play app store.

iTunes app link: https://apps.apple.com/us/app/eta-ebook/id1570646950

Google Play app link:
https://play.google.com/store/apps/details?id=com.hurix.eta.cloudreader

If you need help getting started, please contact us at
eta_ebooks@electricaltrainingalliance.org and we will get in touch with you.

Regards,
electrical training ALLIANCE

By using above credential, you agree to our Privacy Policy and Terms & Conditions

- Please note that this is a separate login from your Online Learning System login, and usernames and passwords are not shared between the systems.
- Your initial password will be provided in this email. Once you receive it, your account is ready to go.
- For your first login, please use the web reader (https://ebooks.electricaltraining.org) with the username and password provided in the email.
- After that first login, you can update your password by clicking your Profile button in the reader.
- Alternatively, you could use the Forgot Password link on the login page to get a new password sent.
- Please note that if you request a password reset, the email will come from no-reply@kitaboo.com and look like the following.

Hi user@youremail.com

Welcome to electrical training ALLIANCE!

We just need you to click the link below to set the password:

https://etastudio.kitaboo.com/reader/teacherportal-electricaltraining/#/resetpassword?token=ABC123&redirectUrl=https://ebooks.electricaltraining.org/#!/

This above reset password link is valid for next 60 Minutes only.
Please use the credentials to log in.
https://ebooks.electricaltraining.org/#!/

If you are reading on a mobile device and tablet, you can also download the Kitaboo app from the Apple Store and Google App Store.

If you have additional questions or need assistance, please contact assignor with following email id: **eta_ebooks@electricaltrainingalliance.org**

Happy reading!
electrical training ALLIANCE

Below is a sample screenshot of the web reader. The red arrow in the upper right-hand corner of the screen indicates the Profile button. Here is where you can change your password after your initial login. You can also take the product tour if you missed it the first time.

- Please check your Junk/Spam emails if you expect any emails from us, especially Gmail and Yahoo users.
- Our communications will either come from donotreply@njatc.org or no-reply@kitaboo.com.
- If you encounter any issues or have questions, please contact us at eta_ebooks@electricaltrainingalliance.org.

Information for Training Directors:

- Not much is changing. The process for assigning eBooks will remain the same in the Training Management System.
- As stated earlier, even though the old eBook system will still be running, all new assignments will only appear in the new eBook platform after we go live.

Finally, we want to thank our Training Partner, Milwaukee, for their partnership and for making this new eBook platform possible.
